Othmane Bakkass

Morocco, Tangier | othmanebakkass@gmail.com | 0631998774

EDUCATION

ENSI Morocco, Tangier
Bachelor degree in web and mobile development *2024 - expected in 2026*
I've built up my software engineering skills and got hands-on experience with technologies like Linux, Docker, Java, and C#.

ISMONTIC TANGER Morocco, Tangier
Technician specializing in multimedia development *2020 - 2022*
I learned the basics of web development including front-end, back-end, and databases.

EXPERIENCE

EXPLEO MAROC Morocco, Tangier
Software Developer Intern *June 2025 – August 2025*
ASP.NET, angular, ms sql server

- I developed RESTful CRUD APIs for key resources including patients and treatments, adhering to API design conventions.
- I designed an interactive dental graph that allows users to visualize tooth status, track treatment history, and directly update treatment records.
- During the internship, I contributed to improving the codebase while respecting a predefined architecture and constraints.

FREELANCE Remote
Full-Stack Developer *November 2024 - April 2025*
Nodejs, typescript, react, redis, postgreSQL, rabbitMQ

- I developed an adaptive dashboard in close collaboration with the client, enabling faster task management and a more organized workflow, tailored to user needs.
- I implemented a real-time notification system using server-sent events (SSE), improving task status visibility and information tracking.
- I designed an automation system for managing long-running background tasks, utilizing Redis message queues and RabbitMQ.

Full-Stack Developer *May 2024 – June 2024*
Python, django, javascript, tailwind css, mysql

- Design and co-development of a complete e-commerce web application for selling protein supplements, including product management, shopping cart, and order processing.
- Gaining practical experience with fundamental software development concepts, including Git, HTTP methods, the MVC model, and collaborative work practices.
- Guiding students throughout the entire lifecycle of their final-year projects, from initial technical choices to final delivery.
